**Subject Line (for email or caption):**

Why are injured workers in BC being denied medical care?

**Body Copy:**

Every day in BC, injured workers are losing their health, their homes, and in some cases, their lives — not because of their injuries, but because of **WorkSafeBC decisions**.

We need our elected officials to step in.

Injured workers deserve:

- Proper medical care
- Income when we're unable to work
- Respect, dignity, and truth
- A fair system that doesn't punish injury with poverty

We are asking all BC representatives to acknowledge the crisis and take responsibility.

#Workers deserve safety.

#Workers deserve care.

#Workers deserve justice.

WorkSafeBC is publicly accountable. So who is holding them accountable?

**Our ask today:**

Please stand with injured workers and demand urgent reform.
